Product highlights

High-pressure steam iron
High-pressure steam iron makes sure the steam goes deep into your garment for optimal and faster crease removal.

Large heated board with NeverBurn cover
The large heated board enables easier and more convenient ironing. The NeverBurn board cover is heat resistant, so you can rest your hot soleplate on the cover without the risk of burning or scorching. It also eliminates the inconvenience of having to repeatedly stressing your wrist to put the iron on its heel.

One touch start button
Starts all the relevant elements needed for ironing, steaming and refreshing at the press of a button

Shirt-shaped board
One end of the board is specially designed for ironing shirts quickly and easily.

High-pressure steamer
The powerful steamer and vertical board mean you can remove creases from delicate fabrics without the risk of damaging them.

Refresher
Heated air from the board freshens your garments and reduces the need for dry-cleaning.

Automatic scale removal
Exclusive technology washes out scale automatically. All you have to do is empty the rinse tray when indicated.

Extra large 2.5 litre water tank
The large crystal clear water tank allows longer steam usage with less refilling. It is detachable and can be filled directly with tap water for total convenience. The tank can be opened for cleaning.

Adjustable height
The board has 22 different height settings, so you can set it at the perfect height for you. The movement is assisted so the height can be adjusted very easily.

Condensation management
The combination of the continuously running fan with the heated board prevents formation of water droplets on and below the ironing board.
